

ReEnergy Africa Genesis 1000 Energy Impact

In 2022, Open Access Data Centres (OADC) proudly sponsored a not-for-profit CSR initiative - **ReEnergy Genesis1000 Energy Impact** during the ReEnergy Summit in Rwanda. The initiative aimed at accelerating energy access needs by providing and empowering 200 households of the host communities/refugee camps with the Tier 2-3 Rwanda Rural Electrification Energy Access requirements of Stand-alone Solar Home Systems. The CSR drive was to improve the livelihoods of the communities through reliable and affordable clean energy technologies to power their homes and businesses, create jobs, and boost green economic opportunities.
