

A new data centre proposition for
Johannesburg

Open Access Data Centres' Isando facility (OADC Isando JNB1) is a world-class, carrier-neutral facility, delivering 7MW site load across more than 1,600m² of white space.

Profile and Location

OADC Isando is a high-specification data centre, situated on a prime site, 15km from Johannesburg city centre and 5km from OR Tambo Airport. There are excellent communication, transport, and airport links. Additionally, the facility provides on-site parking, private meeting rooms, work areas, and other amenities.

**Transforming
digital Africa**

Site Features

- **Total area:** 2 hectares
- **Total technical space:** 3,000m² (over 1 floor) at maximum capacity
- **Building:** Brick-built data centre and operations building
- **Height:** 3.3m clear between raised floor and underside of the steel ceiling
- **Floor:** Raised floor designed at >12kN/m² UDL with floor void of 540mm
- **Access to building:** 24/7/365
- **Connectivity:** Multiple carrier Points of Presence with diverse routes
- **Green:** committed to minimising environmental impact with green technologies & innovations – currently in the process of Green Star Level 4 Sustainability; ISO 9001, 14001, 27001, 45000, 50001; PCI-DSS accreditation

OADC JNB1 Features

Power

- **Power feed:** up to 3MW site load, 11kV power supply with dedicated transformer and power distribution rooms
- **Power on site:** 400/230v three phase, also 48v DC
- **Generators:** 100% backup of complete site using 2N, data centre continuous rated, diesel generators
 - minimum 72-hour fuel storage capacity with polishing and refuelling during use 24/7/365
 - fuel delivery callout contract in place 24/7/365
- **UPS:** modular 'hot swappable' static 2N configuration - 10-minutes autonomy
- **Grounding system:** full TNCS earth network + ground strike and building lightning protection and surge protection systems
- **Lighting:** 500Lux at working plane LED in data centre aisles
- **SLA:** guaranteed 100%

Environment

- **DC cooling capacity:** 3-7kW per rack
- **Temperature/humidity range:** ASHRAE TC9.9 Table A1
- **Cooling redundancy:** N+1 configuration

Fire protection

- **Fire detection:** latest technology, analogue addressable system with smoke detection in every room on site
 - HSSD and VESD A systems pro-active fire monitoring systems linked to gas suppression in critical areas + data halls as an early warning system
 - multi-zone monitoring in all areas
 - minimum 1-hour fire separation within facility
- **Fire suppression system:** NOVEC 1230 gas-suppression system in data halls

For more information, please contact:
OADC Isando JNB1, 22 Electron Avenue, Isando,
Kempton Park, Johannesburg, South Africa

Email: enquiries@openaccessdc.net

Control

- **BMS:** Independent BMS/EMS web-based system monitoring and managing all aspects of data centre infrastructure (power, a/c, fire protection, security) and customer equipment alarm
- **Customer support:** On-site NOC manned 24/7/365
 - Service desk operations and management are underpinned by our call logging system and customer extranet, which tracks customer installations, works orders and technical support provided on-site

Security

- **Multi-stage physical security and access control**
- **Physical security:** perimeter wall and fence
- **Vehicular security:** manned, secure and monitored building perimeter entrance
- **Human:** 24/7/365-manned security station
- **CCTV:** exterior, interior and data hall-specific CCTV, minimum 30 days of time-lapse digital image recording
- **Access control:** 7-level access control system with highest level to access the technical area
 - biometric palm scanner at the entrance
 - photo ID access card and intruder alarm
 - card access proximity readers to all doors
 - monitored perimeter doors
 - anti-passback
 - customer equipment alarm
 - enhanced security options to dedicated suites
 - electronic visitor sign-in system

Connectivity

- **Carrier-neutral:** adjacent to major fibre routes and available through a range of onsite providers

Services

- Colocation (racks, cages, suites, cold aisle, power)
- Warm hands
- Connectivity
- Cross-connects
- Consultancy/bespoke design
- Insights
- Industry-leading suite of client information systems
